Create The IBM Watson IoT Platform And A Device
TEAM ID: PNT2022TMID34341
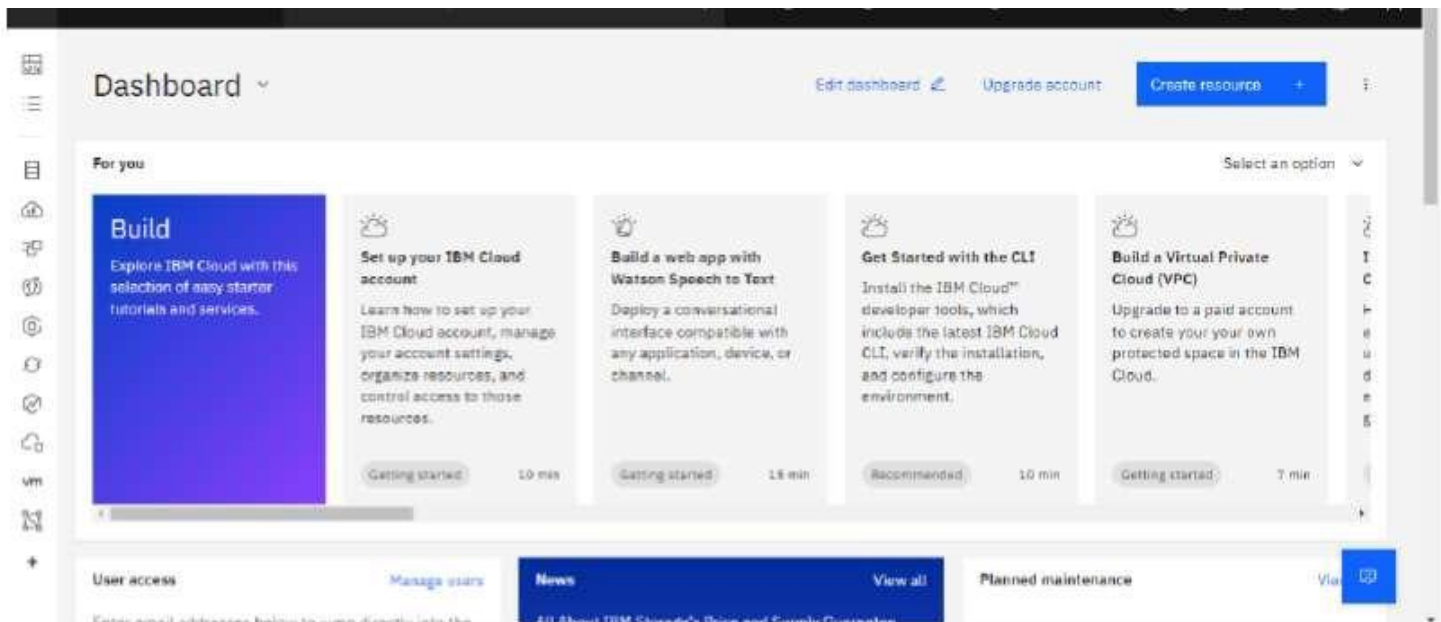

STEP 1:
## Login into your IBM Cloud.

STEP 2:

After Login you will redirected to your dashboard. Search Internet of Things and Click on it.

STEP 3:

Now click on existing instance and then click Launch. Now you will be redirected to new page and Sign In again if it's prompt. Next select your org
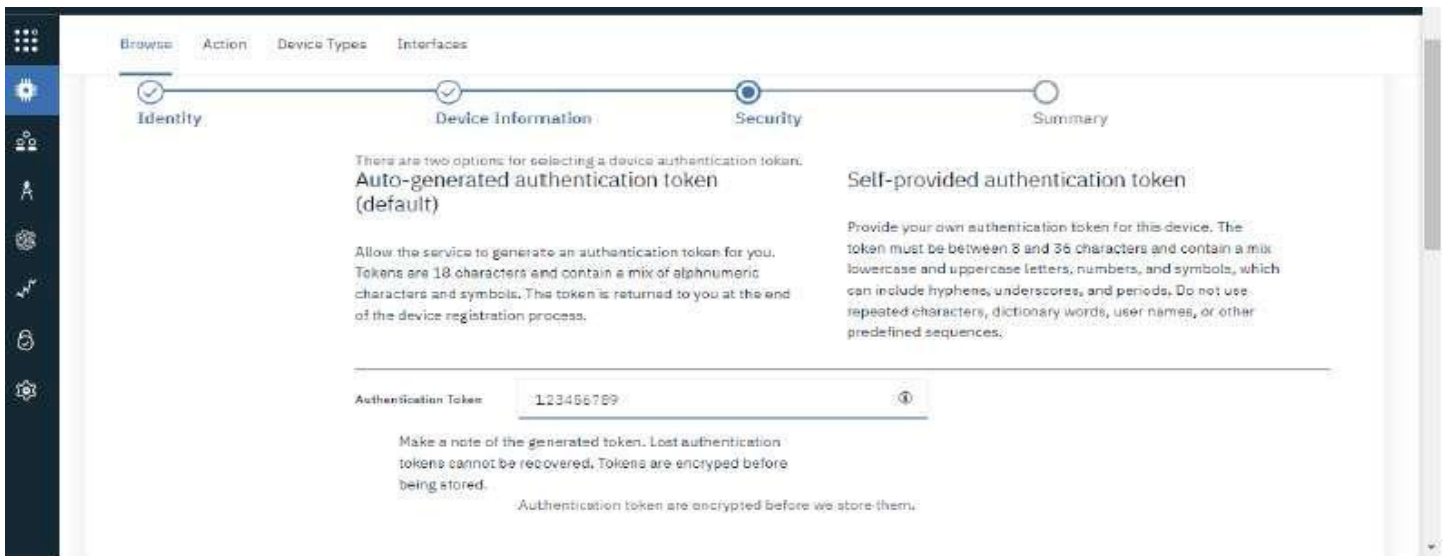

STEP 4:
Go to Devices section, there click on Add Device. There enter your device type and device id. Then click Next and Click Next again.

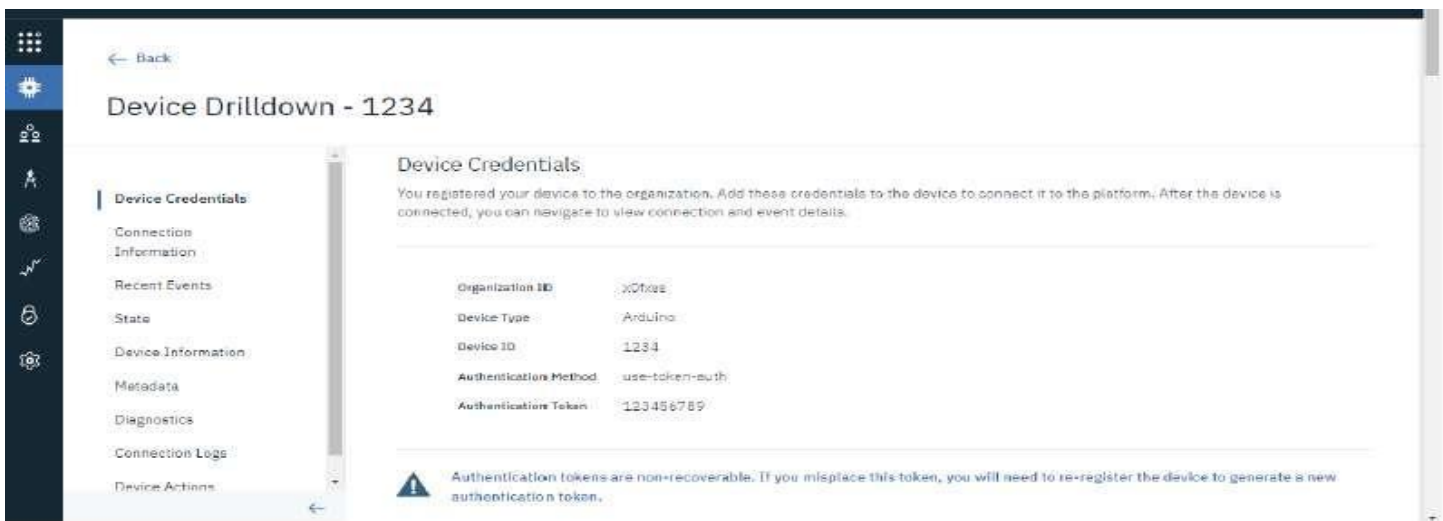

STEP 5:
Enter your authentication token or otherwise it will be auto generated and then click Next and then click Finish

STEP 6:

Now you can see your Device Credentials.

Step 7:

Now click Back, there you can see the list of devices you created with device type, device id, date that device is created and status.
